## **Understanding Times of Transition**

By Roger Taylor

Transition is a passage or movement from one stage of life or circumstance or place to another.

Life will require you to change. There are seasons of cultural change, seasons of life changes, seasons of health changes, seasons of ministry changes, etc.

In the Kingdom of God, transition is very important.

Question #1: Are you in transition?

Question #2: Do you know WHY you are in transition?

Seven Principles of Transition:

- 1) You cannot go directly to the place you want to go. Ex 13:17
  - a) The Hebrew children crossed the Red Sea but didn't go directly into the Promised Land.
  - b) There is something in you that God wants to change.
- 2) During the season of Transition, God will provide for you, but not in the manner you are accustomed to.
  - a) There will be just enough for the day.
  - b) There is something about money in times of Transition.
  - c) God is teaching trust and dependence.
  - d) There will be the provision you need, but no abundance.
- 3) During Transition there will be humbling and testing. Deut. 8:23.

  - b) God wants you to see what is in your heart.
- 4) Transition usually takes a long time – longer than you expect.
  - a) The Hebrew children spent 40 yrs in the wilderness.
  - b) What is God doing in you during Transition?
  - c) Some things in your life require God's intervention to change you.
  - d) God has to do it because you can't totally change yourself.

  - a) Don't do it. Numbers 14:27
  - b) The number one way to stay in Transition is blaming others for your circumstances.
  - c) Remember this is all about how you need to change. Take full responsibility for your heart issues.
